stability.

79-001

Possibly one of the most versatile pieces of equipment ever for the do-it-yourselfer. Completely portable. Can be set up anywhere—in workshop, garage, or on work site. Folds flat for easy storage. Very useful to on-the-job professionals too.

It's the Black & Decker WORKMATE™ All-Purpose Work Center, a foldaway, portable work center, giant vise and sawhorse all in one! Vise holds materials up to 10" wide. Double adjustment levers on vise permit holding wedge shapes. Swivel grip pegs hold irregular and circular objects. Horizontal V-grooves in vise jaws grip tubular pieces.

The B&D WORKMATE™ Work Center does exactly what its name implies. It is your helper in making do-it-yourself projects easier, more comfortable to do. You'll wonder how you ever did without it.

You can work all around your project rather than on one side as you must with a permanent work bench.

29" wide, 32-1/4" high, 26" deep. Folds to 29-1/2" high, 7-1/2" deep, 29" wide. Work table: 9-3/4" wide, closed; 14" wide, open. Max. vise bar opening: 4-1/8". Max. capacity: (work held parallel to vise bars) 10" wide; (work held diagonally to vise bars) 24" wide. Height of work surface (with legs open) 32-1/4", (with legs folded in) 23-1/4". Floor area: (depth, front to back) 26", (max. width) 38". Net wt 32-1/2 lbs, ship wt 37-1/2 lbs.

79-010 Swivel Pegs (2)

For additional versatility in holding objects or to replace lost pegs.

CAUTION:

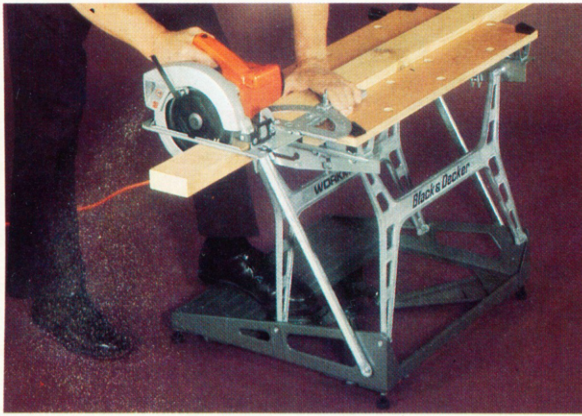

1. Do not apply weight in excess of 350 pounds.
2. Not to be used as a stepladder or standing platform.

TM: Trademark of The Black and Decker Manufacturing Company.

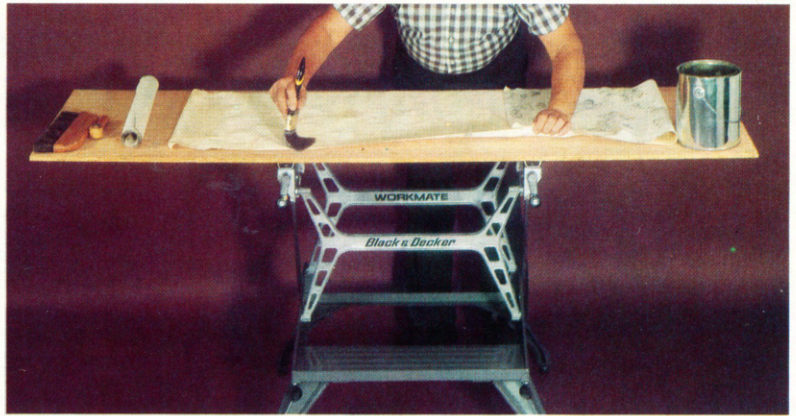

Rear ADJUSTABLE FEET
for leveling Workmate
on uneven floor.

Front ADJUSTABLE FEET
for leveling Workmate.

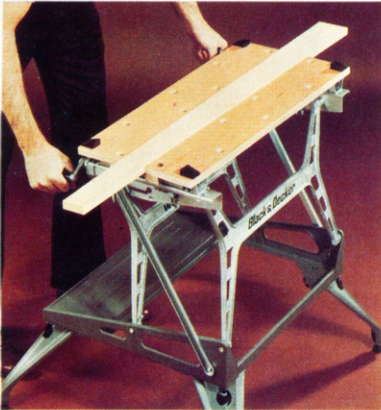

Workmate in
saw horse height
position,
23 1/4" high.

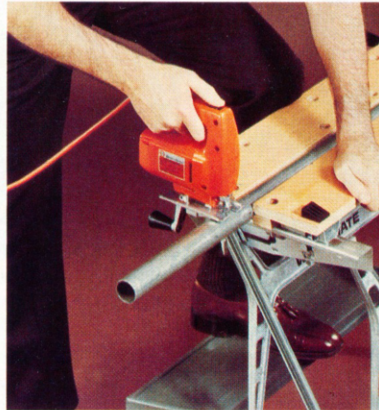

Workmate in sawhorse height position for comfortable sawing.

2' x 6' x 1/2" piece of plywood mounted on a 2x4 three feet long, placed in vise jaws, makes a table for paper hanging jobs.

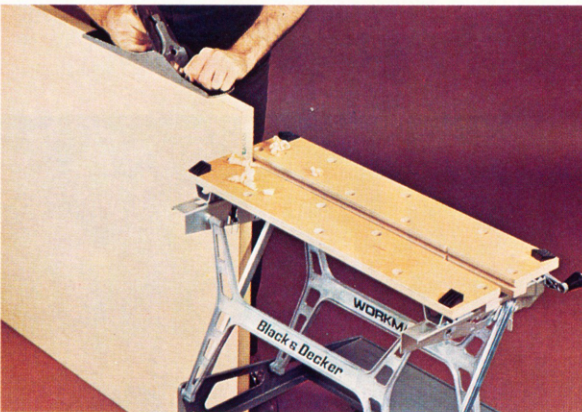

Vise jaws adjust to take wedge shapes.

Horizontal V-grooves grip tubular objects.

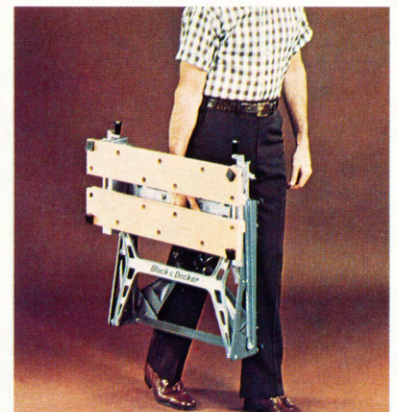

Pegs hold irregular and circular objects.

Vise holds hard to handle pieces.

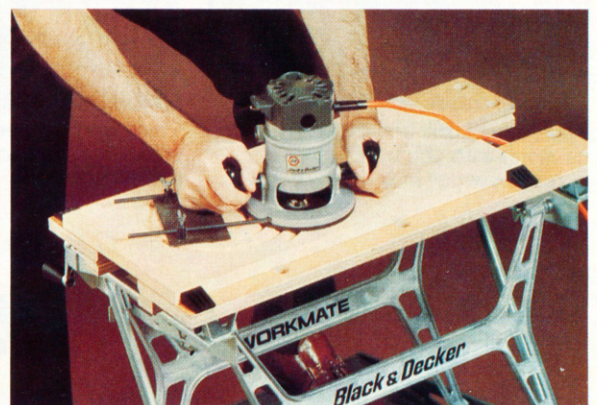

Grooved vise jaws allow vertical grip on pipe and tubing.

Completely portable.

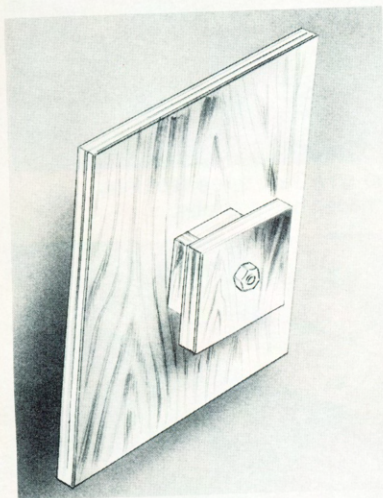

Put repair work right at your fingertips.

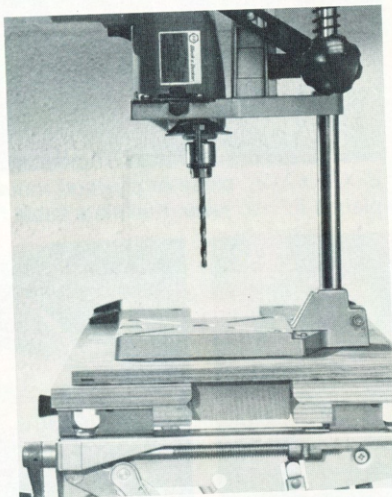

Makes routing easier.

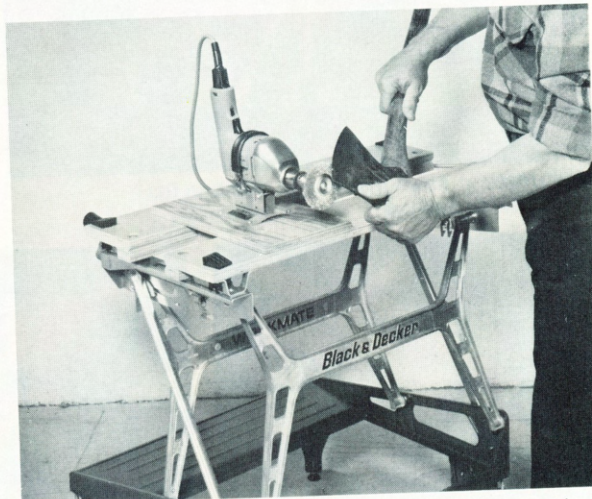

WorkmateTM lets you take stationary power equipment to the job; lets you have a versatile power tool work center.

To use power equipment with WORKMATE, simply make individual mounting blocks (see drawing above) for your different power tools and place blocks in jaws of vise. This saves workbench space in your workshop and makes your power equipment completely portable. Securely mount tool accessories to mounting board with screws or bolts.

The block on the underside of the board is held in the jaws of Workmate. The power unit is secure and safe for use.

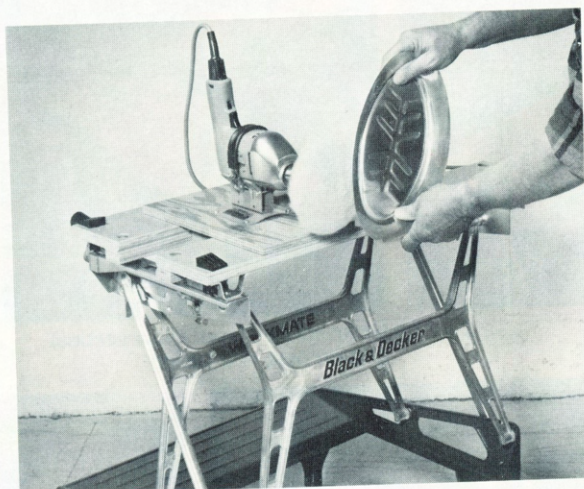

Set at the "workbench" height, Workmate is a good mount for cleaning rusty tools and equipment.

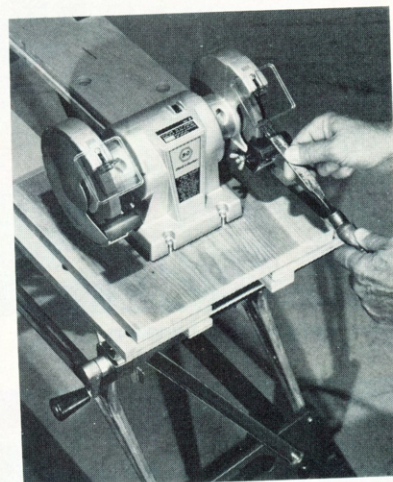

Always wear safety glasses when using power tools mounted on WORKMATE, or when using them elsewhere.

Your power drill and drill press can go along with you on any job—across town or into the next room.

You'll want to use all of your power accessories more often. Take buffing—it's easier and more convenient with Workmate.

Add power equipment you never thought you had room for—grinding is safe and secure with Workmate as your workbench.
